

HFi Holder Finance – Staking Mining

Staking Mining Method:

Staking is the process of actively participating in transaction validation on a blockchain. Each Holder-Fi's, with a minimum-required balance of HFi tokens can validate transactions and earn rewards for their participation (in HFi tokens).

In simple words, staking is the process of purchasing and holding HFi tokens in a wallet to support the operations of the Holder.Finance blockchain ecosystem.

Soon after its introduction in 2012, staking became a popular alternative to cryptocurrency mining and trading for those looking to earn profits from crypto mining but without the risk or high input cost.

Staking is considered the easiest way of making money with cryptocurrencies.

At this stage, users can participate in mining by staking only HFi tokens. The more the community is strong and supports the project by holding HFi, the more users are rewarded in HFi. The staking minting difficulty increases over time.

Every week of staking mining, the amount of mintable HFi decreases to create a positive holding pressure on the market and to reward every Holder-Fi fairly. Each month there is a staking wave.

Date	Batch number	Wave number	Total HFis available
January 2022	1	1	20
February 2022	1	2	20
March 2022	1	3	20
April 2022	2	4	15
May 2022	2	5	15
June 2022	2	6	15
July 2022	3	7	10
August 2022	3	8	10
September 2022	3	9	10
October 2022	4	10	5
November 2022	4	11	5
December 2022	4	12	5

The quantity of HFi obtained by users participating in minting is determined by the amount of staked HFi and its lockup duration. Users can participate in staking HFi, release their staked HFi between each waves, and withdraw their HFi rewards, after the end of each wave.

What is the mining difficulty ratio?

The staking platform starts in Q1 2022, after the end of the Genesis mining campaign. Each wave happens the first week of each month. There are 4 batches of 3 waves. The difficulty of the minting increases over time.

Date	Batch number	Wave number	Total HFis available	Staking difficulty ratio
January 2022	1	1	20	10 HFi to 1 HFi
February 2022	1	2	20	12 HFi to 1 HFi
March 2022	1	3	20	14 HFi to 1 HFi
April 2022	2	4	15	16 HFi to 1 HFi
May 2022	2	5	15	18 HFi to 1 HFi
June 2022	2	6	15	20 HFi to 1 HFi
July 2022	3	7	10	30 HFi to 1 HFi
August 2022	3	8	10	33 HFi to 1 HFi
September 2022	3	9	10	36 HFi to 1 HFi
October 2022	4	10	5	40 HFi to 1 HFi
November 2022	4	11	5	45 HFi to 1 HFi
December 2022	4	12	5	50 HFi to 1 HFi

All the tokens are locked in the smart contract beforehand of the start of each staking wave.

What is the weekly mining rate?

Date	Batch #	Wave #	Total HFis daily rewards	Staking difficulty ratio	Total potential wave reward (staking 30 HFi)	Total potential wave reward (staking 1 HFi)
January 2022	1	1	2.857 HFi	10 HFi to 1 HFi	3 HFi	0.1 HFi
February 2022	1	2	2.857 HFi	12 HFi to 1 HFi	2.5 HFi	0.083 HFi
March 2022	1	3	2.857 HFi	14 HFi to 1 HFi	2.143 HFi	0.0714 HFi
April 2022	2	4	2.143 HFi	16 HFi to 1 HFi	1.875 HFi	0.0625 HFi
May 2022	2	5	2.143 HFi	18 HFi to 1 HFi	1.667 HFi	0.0556 HFi
June 2022	2	6	2.143 HFi	20 HFi to 1 HFi	1.5 HFi	0.05 HFi
July 2022	3	7	1.429 HFi	30 HFi to 1 HFi	1 HFi	0.0333 HFi
August 2022	3	8	1.429 HFi	33 HFi to 1 HFi	0.909 HFi	0.0303 HFi
September 2022	3	9	1.429 HFi	36 HFi to 1 HFi	0.833 HFi	0.0278 HFi
October 2022	4	10	0.714 HFi	40 HFi to 1 HFi	0.75 HFi	0.025 HFi
November 2022	4	11	0.714 HFi	45 HFi to 1 HFi	0.667 HFi	0.0222 HFi
December 2022	4	12	0.714 HFi	50 HFi to 1 HFi	0.6 HFi	0.02 HFi

In addition to the rewards from staking pool, holders who stake their HFi tokens will earn HFS (HolderSwap utility token) on a daily basis.
